Groundwork User Activation Communication Flow

GROUNDWORK BY JALLA

Contractor and client journeys, lifecycle emails, reminder sequences, and implementation rules

Purpose

This document defines how Groundwork communicates with contractors and clients from account creation through a connected project (Verified Project). It separates
independent signups from invited users so every person receives the correct next action and never receives instructions to create a duplicate project.

Prepared for implementation | Version 1.0 | November 2026

1 Activation objective

Groundwork should move each user toward one operational outcome: a real project in which the client and contractor are both connected. Account creation, onboarding, and project creation are intermediate milestones.

User journey	Activation outcome
Contractor self-signup	Contractor onboarded, project created, client joined
Contractor invited by client	Contractor accepted invitation, completed required onboarding, joined existing project
Client self-signup	Project created, contractor joined or contractor-support request accepted
Client invited by contractor	Client accepted invitation and joined existing project

2 Non-negotiable communication rules

1. One user, one active activation sequence, and one primary call to action at a time.
2. Day 1, Day 3, and Day 7 are measured from entry into the incomplete stage, not from the previous reminder.
3. The moment the required action is completed, all pending emails for that stage must be cancelled.
4. Every button must deep-link to the exact unfinished screen, not the general dashboard.
5. Independent signups and invited users must never share the same welcome sequence.
6. Invited users join the project that already exists; they are never instructed to create another project.
7. New invitees create an account or sign in. Existing users sign in and continue without repeating onboarding already completed.
8. Contractor onboarding completion provides standard contractor access, not Partner, Certified Partner, verified, or directory status.
9. After Day 7, only qualified or engaged users enter phone or text follow-up, and only where contact permissions allow it.
10. All emails should eventually be available in English and French, using the user's stored language preference.

3 Timing and escalation standard

Timing	Purpose	Communication angle
Immediate	Confirm completed action	State the achievement and present the next single action
24 hours	Practical reminder	Short reminder with direct link
Day 3	Reinforce value	Explain what completing the action unlocks
Day 7	Resolve friction	Offer help and identify the blocker

Timing	Purpose	Communication angle
After Day 7	Human recovery	Prioritized call or text for qualified and engaged users

4 Journey maps

The four journeys below are intentionally separate. The invitation tracks begin with an existing project and therefore bypass project creation.

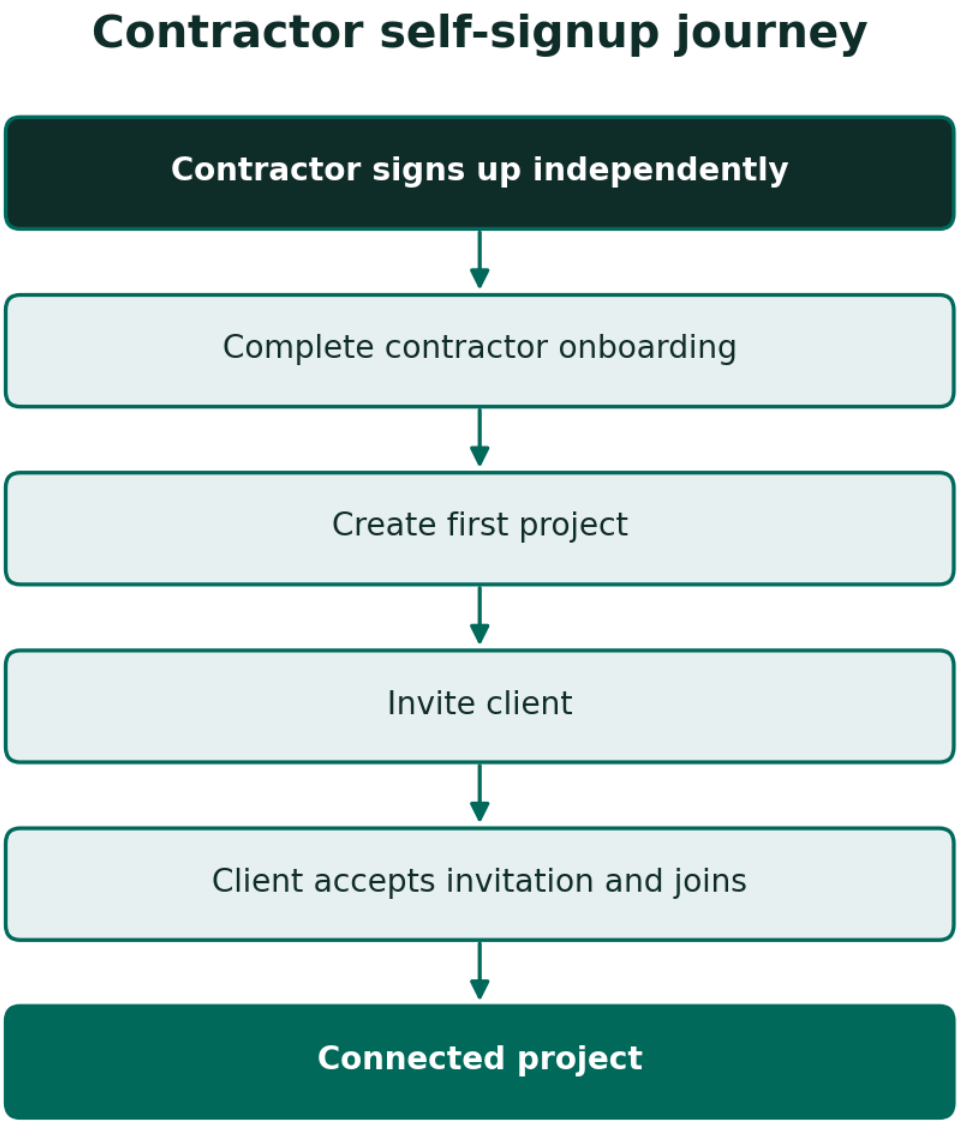

Figure 1 Contractor self-signup route

Figure 2 Contractor invited by a client

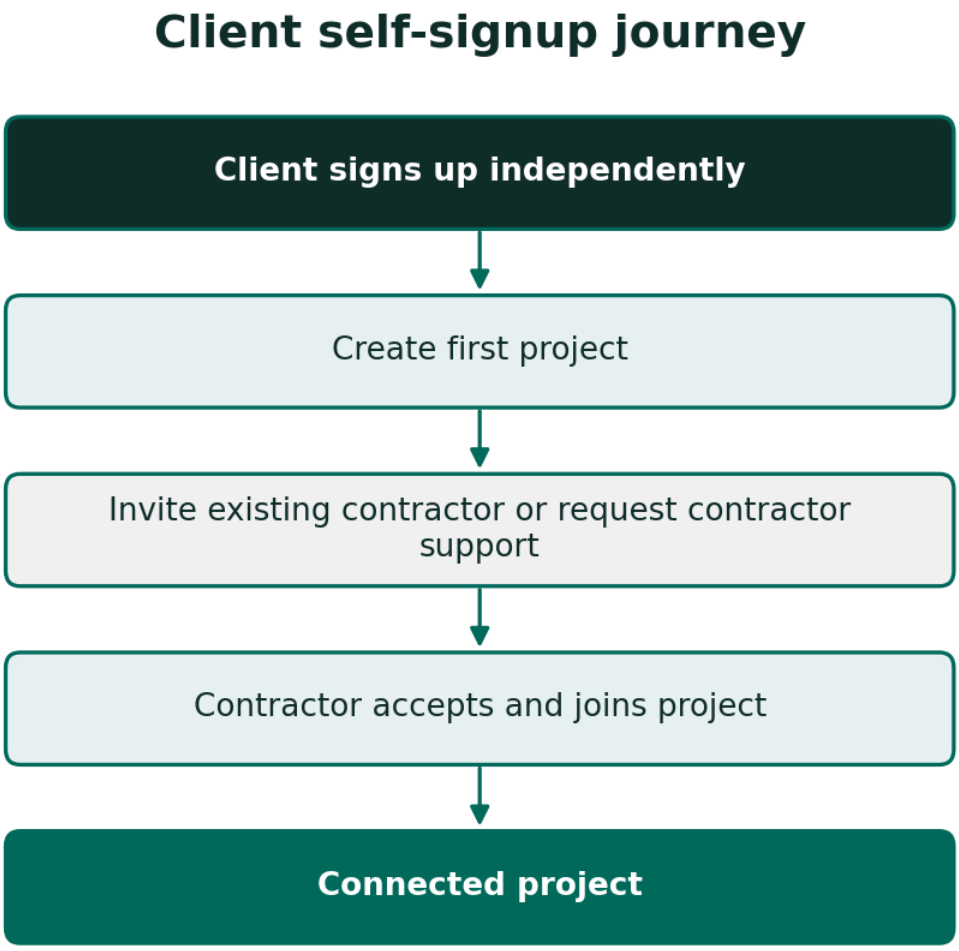

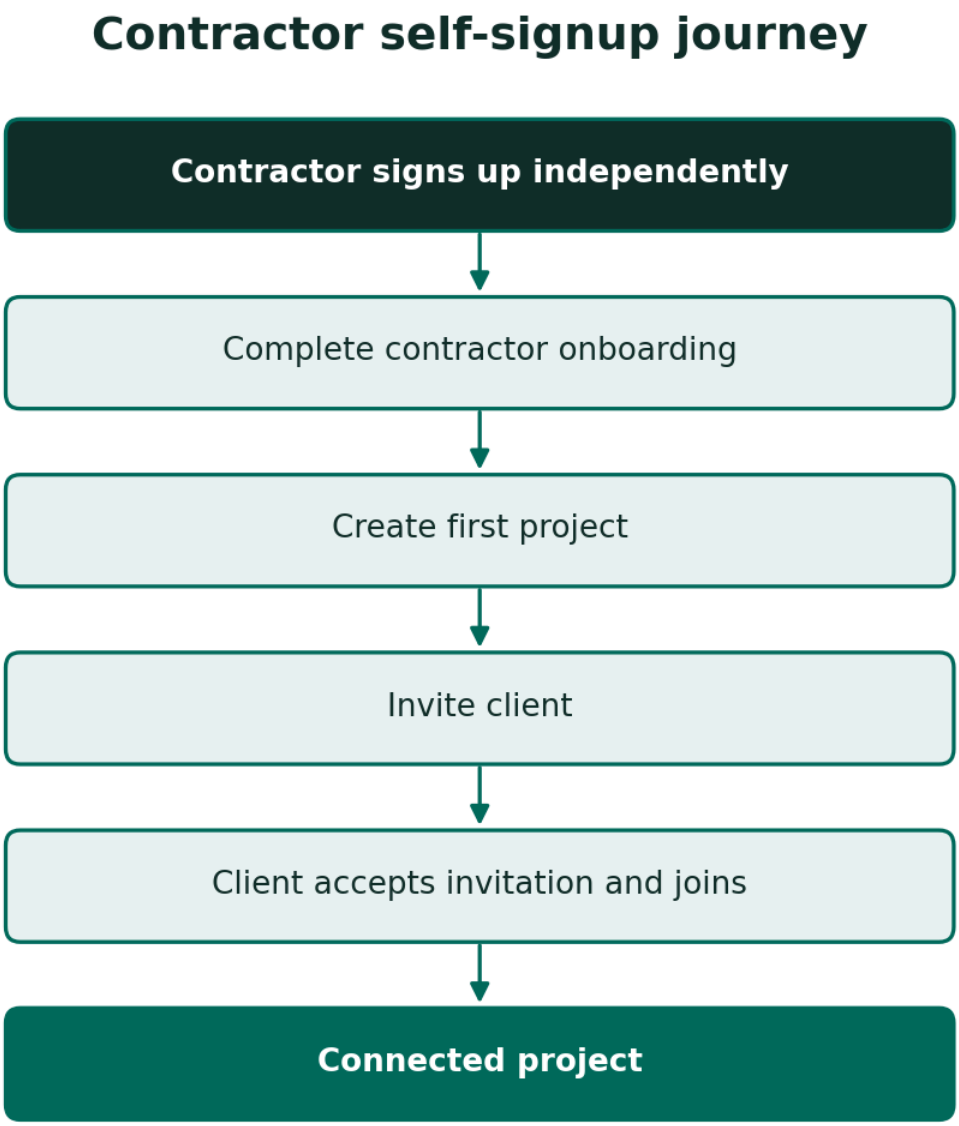

Figure 3 Client self-signup route

Figure 4 Client invited by a contractor

5 Contractor self-signup track

Contractor self-signup activation path

5.1 Sequence map

Stage entered	Immediate email	If next action is incomplete	Exit event
Independent signup	CS01 Welcome	CS02 Day 1; CS03 Day 3; CS04 Day 7	Onboarding completed

Stage entered	Immediate email	If next action is incomplete	Exit event
Onboarding completed	CS05 Onboarding complete	CS06 Day 1; CS07 Day 3; CS08 Day 7	First project created
Project created	CS09 Project created	CS10 Day 1; CS11 Day 3; CS12 Day 7	Client invitation sent
Client invited	CS13 Invitation sent	CS14 Day 3; CS15 Day 7 to contractor	Client joins project
Client joined	CS16 Connected project	None	Activation completed

5.2 Contractor self-signup email copy

CS01 Welcome after independent signup

Trigger	Send only when	Cancel when
contractor_signed_up	Signup source is independent and onboarding is incomplete	contractor_onboarding_completed

Subject: Welcome to Groundwork by Jalla

Hi {{first_name}},

Welcome to Groundwork by Jalla. Groundwork helps you organize projects, milestones, documents, progress updates, and client communication in one place.

Your next step is to complete your contractor onboarding so we can finish setting up your account.

Primary button: Complete contractor onboarding

CS02 Onboarding reminder Day 1

Trigger	Send only when	Cancel when
24 hours after independent signup	Onboarding remains incomplete	contractor_onboarding_completed

Subject: Complete your Groundwork contractor onboarding

Hi {{first_name}},

You created your Groundwork account, but your contractor onboarding is not complete yet. Finish the remaining details to begin using Groundwork for your projects.

Primary button: Continue onboarding

CS03 Onboarding reminder Day 3

Trigger	Send only when	Cancel when
72 hours after independent signup	Onboarding remains incomplete	contractor_onboarding_completed

Subject: Finish setting up your contractor account

Hi {{first_name}},

Completing your contractor onboarding gives you access to create projects, organize project information, and collaborate with clients through Groundwork.

Return to your onboarding and complete the remaining steps.

Primary button: Finish onboarding

CS04 Onboarding reminder Day 7

Trigger	Send only when	Cancel when
7 days after independent signup	Onboarding remains incomplete	contractor_onboarding_completed

Subject: Do you need help completing your Groundwork account?

Hi {{first_name}},

Your contractor onboarding is still incomplete. If something is preventing you from finishing, reply to this email and tell us where you are stuck.

You can also return to Groundwork and complete the remaining steps now.

Primary button: Complete onboarding

CS05 Onboarding completed

Trigger	Send only when	Cancel when
contractor_onboarding_completed	No project exists for this contractor	first_project_created

Subject: Your contractor onboarding is complete

Hi {{first_name}},

Your contractor onboarding is complete. You now have standard contractor access to Groundwork and can use it to organize project information, milestones, documents, updates, and client communication.

Create your first project to begin.

Primary button: Create your first project

CS06 Project creation reminder Day 1

Trigger	Send only when	Cancel when
24 hours after onboarding completion	No contractor-owned project exists	first_project_created or no_active_project_selected

Subject: Create your first project on Groundwork

Hi {{first_name}},

Your contractor account is ready. Add your first active project so you can begin organizing the work inside Groundwork.

If you do not currently have a project to add, select that option in Groundwork and we will stop these reminders.

Primary button: Create a project

CS07 Project creation reminder Day 3

Trigger	Send only when	Cancel when
72 hours after onboarding completion	No contractor-owned project exists	first_project_created or no_active_project_selected

Subject: Bring your first project into Groundwork

Hi {{first_name}},

A Groundwork project gives you one place for milestones, documents, progress updates, and communication with your client.

Create your first project when you are ready to begin organizing it.

Primary button: Create a project

CS08 Project creation reminder Day 7

Trigger	Send only when	Cancel when
7 days after onboarding completion	No contractor-owned project exists	first_project_created or no_active_project_selected

Subject: Need help adding your first project?

Hi {{first_name}},

You have not created a project yet. If you have an active project and need help setting it up, reply to this email and our team can assist.

If you do not currently have a project, update your account so we can move you into the appropriate communication track.

Primary button: Add a project

CS09 First project created

Trigger	Send only when	Cancel when
first_project_created	No client invitation has been sent	client_invited

Subject: Your first Groundwork project has been created

Hi {{first_name}},

Congratulations on creating {{project_name}} in Groundwork.

The next step is to invite your client. Once connected, your client can view the project information, milestones, documents, and updates you share. You control what your client see.

Primary button: Invite your client

CS10 Client invitation reminder Day 1

Trigger	Send only when	Cancel when
24 hours after project creation	No client invitation exists for the project	client_invited

Subject: Invite your client to {{project_name}}

Hi {{first_name}},

{{project_name}} is ready, but your client has not been invited yet. Connect them so they can follow the project through Groundwork.

Primary button: Invite client

CS11 Client invitation reminder Day 3

Trigger	Send only when	Cancel when
72 hours after project creation	No client invitation exists for the project	client_invited

Subject: Give your client visibility into {{project_name}}

Hi {{first_name}},

Inviting your client creates a shared source of truth for project updates, documents, and milestones. It also reduces the need to distribute the same information across separate channels.

Primary button: Invite client

CS12 Client invitation reminder Day 7

Trigger	Send only when	Cancel when
7 days after project creation	No client invitation exists for the project	client_invited

Subject: Do you need help inviting your client?

Hi {{first_name}},

Your project is not connected to a client yet. If you need help sending the invitation or explaining Groundwork to your client, reply to this email.

Primary button: Invite client

P.S: Contractor using Groundwork to provide updates report higher client satisfaction and referrals

CS13 Client invitation sent

Trigger	Send only when	Cancel when
client_invited	Invitation was sent successfully	client_joined_project

Subject: Your invitation to {{client_name}} has been sent

Hi {{first_name}},

Your invitation to {{client_name}} for {{project_name}} has been sent. We will let you know when the client accepts and joins the project.

Primary button: View project

CS14 Client invitation pending Day 3

Trigger	Send only when	Cancel when
72 hours after client invitation	Client has not accepted	client_joined_project

Subject: {{client_name}} has not joined {{project_name}} yet

Hi {{first_name}},

Your client invitation is still pending. You may want to follow up directly, resend the invitation, or confirm that the email address is correct.

Primary button: Review invitation

CS15 Client invitation pending Day 7

Trigger	Send only when	Cancel when
7 days after client invitation	Client has not accepted	client_joined_project

Subject: Your client invitation is still pending

Hi {{first_name}},

{{client_name}} has not joined {{project_name}} yet. Resend the invitation, update the contact information, or reply if you need help

onboarding the client.

Primary button: Manage invitation

CS16 Connected project confirmation

Trigger	Send only when	Cancel when
client_joined_project	The contractor and client are connected	None

Subject: {{client_name}} has joined {{project_name}}

Hi {{first_name}},

{{client_name}} has joined {{project_name}}. Your project is now connected, and you can begin sharing updates, documents, milestones, and progress through Groundwork.

Primary button: Open project

6 Contractor invitation track

Contractor invited by a client

6.1 Sequence map

Stage entered	Immediate email	If action is incomplete	Exit event
Client sends invitation	CI01 Invitation	CI02 Day 1; CI03 Day 3; CI04 Day 7	Invitation accepted

Stage entered	Immediate email	If action is incomplete	Exit event
New contractor accepts	CI05 Welcome and onboarding	CI06 Day 1; CI07 Day 3; CI08 Day 7	Onboarding completed
Existing contractor accepts	CI09 Connected confirmation	None	Joined project
New contractor completes onboarding	CI09 Connected confirmation	None	Joined project
Invitation remains pending	CI10 Day 3; CI11 Day 7 to client	Client manages invitation	Contractor joins

6.2 Contractor invitation email copy

CI01 Contractor project invitation

Trigger	Send only when	Cancel when
contractor_invited_by_client	Invitation is valid and unaccepted	contractor_invitation_accepted

Subject: {{client_name}} invited you to {{project_name}} on Groundwork

Hi {{first_name}},

{{client_name}} has invited you to collaborate on {{project_name}} through Groundwork by Jalla.

Accept the invitation to view the project and collaborate with the client. If you already have a Groundwork account, sign in. If you are new, you will create an account before joining.

Primary button: View and accept invitation

CI02 Contractor invitation reminder Day 1

Trigger	Send only when	Cancel when
24 hours after invitation	Invitation remains unaccepted	contractor_invitation_accepted

Subject: Reminder: {{client_name}} invited you to {{project_name}}

Hi {{first_name}},

Your invitation to {{project_name}} is waiting. Accept it to join the project and collaborate with {{client_name}} in Groundwork.

Primary button: Accept invitation

CI03 Contractor invitation reminder Day 3

Trigger	Send only when	Cancel when
72 hours after invitation	Invitation remains unaccepted	contractor_invitation_accepted

Subject: Join {{project_name}} on Groundwork

Hi {{first_name}},

Groundwork gives you and {{client_name}} a shared place for project information, milestones, documents, and updates. Accept the invitation to join the existing project.

Primary button: Join project

CI04 Contractor invitation reminder Day 7

Trigger	Send only when	Cancel when
7 days after invitation	Invitation remains unaccepted	contractor_invitation_accepted

Subject: Your invitation to {{project_name}} is still open

Hi {{first_name}},

This is the final reminder for your invitation to {{project_name}}. Accept it now or reply if you are having trouble accessing the project.

Primary button: Accept invitation

CI05 New invited contractor welcome

Trigger	Send only when	Cancel when
Invitation accepted by a contractor without completed onboarding	Onboarding is required before active project access	contractor_onboarding_completed

Subject: Complete your contractor setup to join {{project_name}}

Hi {{first_name}},

You accepted {{client_name}}'s invitation to {{project_name}}. Because this is your first Groundwork project, complete your contractor onboarding before joining the project.

You do not need to create another project. The client's project is already waiting for you.

Primary button: Complete contractor onboarding

CI06 Invited contractor onboarding reminder Day 1

Trigger	Send only when	Cancel when
24 hours after invitation acceptance	Required onboarding remains incomplete	contractor_onboarding_completed

Subject: Finish setting up your account for {{project_name}}

Hi {{first_name}},

Your invitation has been accepted, but your contractor onboarding is incomplete. Finish the remaining steps to join {{project_name}}.

Primary button: Continue onboarding

CI07 Invited contractor onboarding reminder Day 3

Trigger	Send only when	Cancel when
72 hours after invitation acceptance	Required onboarding remains incomplete	contractor_onboarding_completed

Subject: {{project_name}} is waiting for you

Hi {{first_name}},

Complete your contractor onboarding to access the project {{client_name}} shared with you. You will be taken directly to the existing project once setup is complete.

Primary button: Finish onboarding

CI08 Invited contractor onboarding reminder Day 7

Trigger	Send only when	Cancel when
7 days after invitation acceptance	Required onboarding remains incomplete	contractor_onboarding_completed

Subject: Need help joining {{project_name}}?

Hi {{first_name}},

Your contractor setup is still incomplete. Reply if you need assistance, or complete the remaining steps to join {{project_name}}.

Primary button: Complete setup

CI09 Contractor connected confirmation

Trigger	Send only when	Cancel when
Contractor joins existing project	Project membership is active	None

Subject: You have joined {{project_name}}

Hi {{first_name}},

You are now connected to {{project_name}} with {{client_name}}. Open the project to review its information and begin collaborating through Groundwork.

Primary button: Open project

CI10 Pending contractor notice to client Day 3

Trigger	Send only when	Cancel when
72 hours after contractor invitation	Contractor has not accepted	contractor_joined_project

Subject: {{contractor_name}} has not joined {{project_name}} yet

Hi {{client_first_name}},

Your invitation to {{contractor_name}} is still pending. You may follow up directly, resend the invitation, or confirm the email address.

Primary button: Review invitation

CI11 Pending contractor notice to client Day 7

Trigger	Send only when	Cancel when
7 days after contractor invitation	Contractor has not accepted	contractor_joined_project

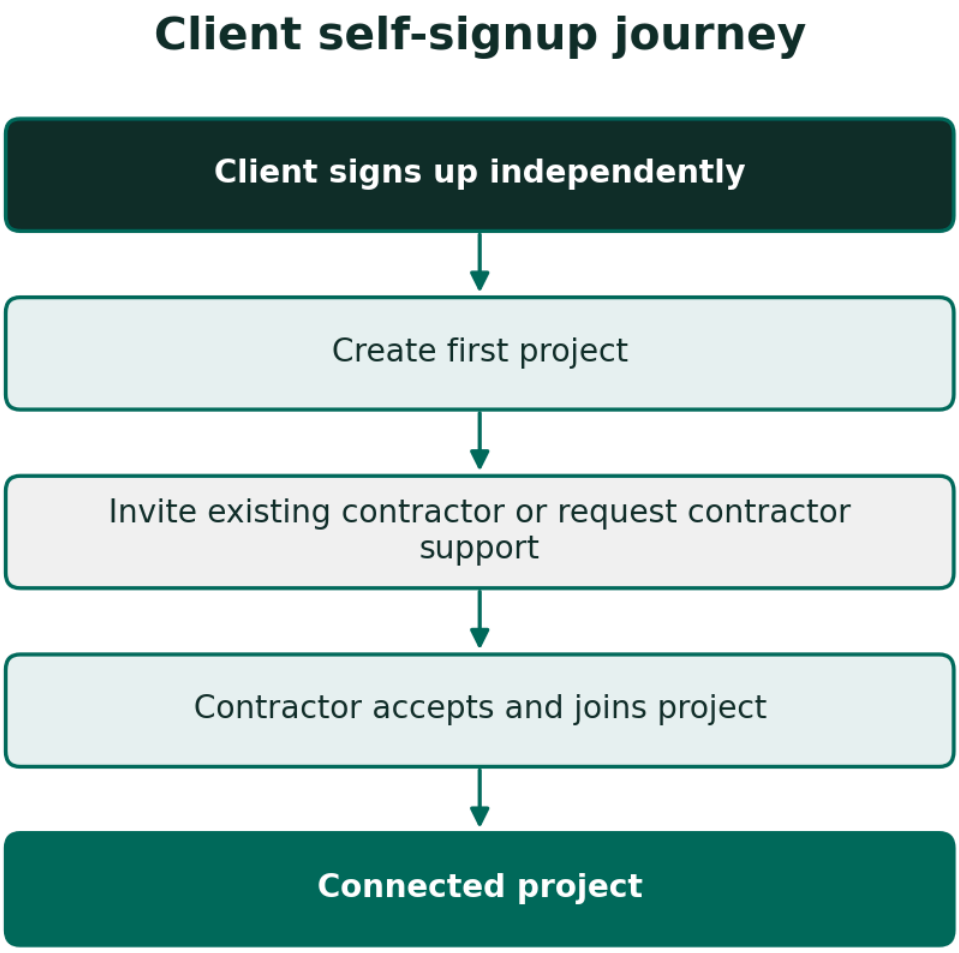

Subject: Your contractor invitation is still pending

Hi {{client_first_name}},

{{contractor_name}} has not joined {{project_name}}. Resend the invitation, change the contact information, or request support from Jalla.

Primary button: Manage invitation

7 Client self-signup track

Client self-signup activation path

CL01 Client welcome after independent signup

Trigger	Send only when	Cancel when
client_signed_up	Signup source is independent and no project exists	first_client_project_created

Subject: Welcome to Groundwork by Jalla

Hi {{first_name}},

Welcome to Groundwork by Jalla. Groundwork gives you one place to organize your construction project, follow milestones, receive updates, and collaborate with your contractor.

Create your first project to begin.

Primary button: Create your first project

CL02 Client project reminder Day 1

Trigger	Send only when	Cancel when
24 hours after independent signup	No client-owned project exists	first_client_project_created

Subject: Create your first Groundwork project

Hi {{first_name}},

Your Groundwork account is ready, but you have not created a project yet. Add your project so you can begin organizing the build and connecting the people involved.

Primary button: Create project

CL03 Client project reminder Day 3

Trigger	Send only when	Cancel when
72 hours after independent signup	No client-owned project exists	first_client_project_created

Subject: Bring your construction project into Groundwork

Hi {{first_name}},

Creating your project gives you a shared place for milestones, documents, progress updates, and communication with your contractor.

Primary button: Create project

CL04 Client project reminder Day 7

Trigger	Send only when	Cancel when
7 days after independent signup	No client-owned project exists	first_client_project_created

Subject: Need help creating your project?

Hi {{first_name}},

You have not created a project yet. If you need help entering the project details, reply to this email and our team can assist.

Primary button: Create project

CL05 Client project created

Trigger	Send only when	Cancel when
first_client_project_created	No contractor is connected and no support request exists	contractor_invited or contractor_support_requested

Subject: Your first Groundwork project has been created

Hi {{first_name}},

Congratulations on creating {{project_name}}.

Your next step is to connect the professional responsible for the work. Invite your existing contractor, or request help from Jalla if you do not have one yet.

Primary button: Connect a contractor

CL06 Contractor connection reminder Day 1

Trigger	Send only when	Cancel when
24 hours after project creation	No contractor invitation or support request exists	contractor_invited or contractor_support_requested

Subject: Connect a contractor to {{project_name}}

Hi {{first_name}},

{{project_name}} is ready, but no contractor is connected yet. Invite your contractor or request help finding an appropriate professional.

Primary button: Connect a contractor

CL07 Contractor connection reminder Day 3

Trigger	Send only when	Cancel when
72 hours after project creation	No contractor invitation or support request exists	contractor_invited or contractor_support_requested

Subject: Your project needs a contractor

Hi {{first_name}},

A connected contractor can share project information, documents, milestones, and progress updates with you through Groundwork. If you don’t have a contractor, reply to this email and Jalla will help you find one

Primary button: Connect a contractor

CL08 Contractor connection reminder Day 7

Trigger	Send only when	Cancel when
7 days after project creation	No contractor invitation or support request exists	contractor_invited or contractor_support_requested

Subject: Do you need help connecting a contractor?

Hi {{first_name}},

{{project_name}} is not connected to a contractor yet. Invite the professional you already work with, or request support from Jalla if you need assistance.

Primary button: Choose contractor option

CL09 Contractor support request confirmation

Trigger	Send only when	Cancel when
contractor_support_requested	Request was submitted successfully	support_request_resolved

Subject: We received your contractor support request

Hi {{first_name}},

We received your request for help connecting a contractor to {{project_name}}. A member of the Jalla team will review the project information and contact you about the next step.

This request does not guarantee an immediate match or appointment. Any professional engagement will remain subject to availability, fit, client choice, and applicable terms.

Primary button: View project

CL10 Contractor invitation sent

Trigger	Send only when	Cancel when
contractor_invited	Invitation was sent successfully	contractor_joined_project

Subject: Your invitation to {{contractor_name}} has been sent

Hi {{first_name}},

Your invitation to {{contractor_name}} for {{project_name}} has been sent. We will let you know when the contractor accepts and joins the project.

Primary button: View project

CL11 Contractor invitation pending Day 3

Trigger	Send only when	Cancel when
72 hours after contractor invitation	Contractor has not accepted	contractor_joined_project

Subject: {{contractor_name}} has not joined {{project_name}} yet

Hi {{first_name}},

Your contractor invitation is still pending. You may follow up directly, resend the invitation, or confirm the email address.

Primary button: Review invitation

Trigger	Send only when	Cancel when
7 days after contractor invitation	Contractor has not accepted	contractor_joined_project

Subject: Your contractor invitation is still pending

Hi {{first_name}},

{{contractor_name}} has not joined {{project_name}}. Resend the invitation, update the contact information, or request help from Jalla.

Primary button: Manage invitation

CL13 Connected project confirmation

Trigger	Send only when	Cancel when
contractor_joined_project	Client and contractor are connected	None

Subject: {{contractor_name}} has joined {{project_name}}

Hi {{first_name}},

{{contractor_name}} has joined {{project_name}}. Your project is now connected, and you can collaborate through Groundwork as information, milestones, documents, and updates are added.

Primary button: Open project

8 Client invitation track

Client invited by a contractor

8.1 Sequence map

Stage entered	Immediate email	If action is incomplete	Exit event
Contractor sends invitation	IV01 Invitation	IV02 Day 1; IV03 Day 3; IV04 Day 7	Invitation accepted
New client accepts	Account creation or sign-in	Resume invitation after authentication	Client joins project

Stage entered	Immediate email	If action is incomplete	Exit event
Existing client accepts	IV05 Connected confirmation	None	Client joins project
Invitation remains pending	IV06 Day 3; IV07 Day 7 to contractor	Contractor manages invitation	Client joins
Client joins	IV05 to client; IV08 to contractor	None	Activation completed

8.2 Client invitation email copy

IV01 Client project invitation

Trigger	Send only when	Cancel when
client_invited_by_contractor	Invitation is valid and unaccepted	client_invitation_accepted

Subject: {{contractor_name}} invited you to view {{project_name}}

Hi {{first_name}},

{{contractor_name}} has invited you to join {{project_name}} on Groundwork by Jalla.

Accept the invitation to view the existing project, including information, documents, milestones, and updates shared with you. If you already have an account, sign in. If you are new, create your account to view project.

Primary button: Accept invitation

IV02 Client invitation reminder Day 1

Trigger	Send only when	Cancel when
24 hours after invitation	Invitation remains unaccepted	client_invitation_accepted

Subject: Reminder: join {{project_name}} on Groundwork

Hi {{first_name}},

Your invitation to {{project_name}} is waiting. Accept it to connect with {{contractor_name}} and view the project through Groundwork.

Primary button: Accept invitation

IV03 Client invitation reminder Day 3

Trigger	Send only when	Cancel when
72 hours after invitation	Invitation remains unaccepted	client_invitation_accepted

Subject: Get visibility into {{project_name}}

Hi {{first_name}},

Groundwork gives you and {{contractor_name}} a shared place for project information, documents, milestones, and progress updates. Accept the invitation to join your project.

Primary button: Join project

IV04 Client invitation reminder Day 7

Trigger	Send only when	Cancel when
7 days after invitation	Invitation remains unaccepted	client_invitation_accepted

Subject: Your invitation to {{project_name}} is still open

Hi {{first_name}},

This is the final automated reminder for your invitation to {{project_name}}. Accept it now or reply if you need help accessing the project.

Primary button: Accept invitation

IV05 Client connected confirmation

Trigger	Send only when	Cancel when
Client accepts and joins existing project	Project membership is active	None

Subject: You have joined {{project_name}}

Hi {{first_name}},

You are now connected to {{project_name}} with {{contractor_name}}. Open the project to review the available information and follow updates

through Groundwork.

You do not need to create another project. The project shared with you is already active in your account.

Primary button: Open project

IV06 Pending client notice to contractor Day 3

Trigger	Send only when	Cancel when
72 hours after client invitation	Client has not accepted	client_joined_project

Subject: {{client_name}} has not joined {{project_name}} yet

Hi {{contractor_first_name}},

Your client invitation is still pending. You may follow up directly, resend the invitation, or confirm the email address.

Primary button: Review invitation

IV07 Pending client notice to contractor Day 7

Trigger	Send only when	Cancel when
7 days after client invitation	Client has not accepted	client_joined_project

Subject: Your client invitation is still pending

Hi {{contractor_first_name}},

{{client_name}} has not joined {{project_name}}. Resend the invitation, update the contact information, or request onboarding support from Jalla.

Primary button: Manage invitation

IV08 Client joined notice to contractor

Trigger	Send only when	Cancel when
client_joined_project	Client membership is active	None

Subject: {{client_name}} has joined {{project_name}}

Hi {{contractor_first_name}},

{{client_name}} has joined {{project_name}}. You can now share project information, milestones, documents, and updates with the client through Groundwork.

Primary button: Open project

9 Implementation logic

9.1 Required lifecycle events

Event	Minimum meaning
contractor_signed_up	Contractor account created and signup source recorded
contractor_onboarding_completed	All mandatory contractor onboarding fields and Terms acceptance completed
client_signed_up	Client account created and signup source recorded
project_created	Project record saved with required minimum information
client_invited	Valid client invitation sent successfully
contractor_invited	Valid contractor invitation sent successfully
invitation_accepted	Invitee authenticated and accepted the invitation
project_membership_active	Invitee is linked to and can access the intended project
contractor_support_requested	Client requested Jalla assistance instead of inviting a contractor
no_active_project_selected	Contractor stated that no project is currently available to add

9.2 Required routing fields

- user_role: contractor or client
- entry_source: independent_signup, contractor_invitation, client_invitation, direct_outreach, or referral
- language_preference: English or French

- onboarding_status: not_started, in_progress, completed
- project_id and project_name where applicable
- inviter_user_id, inviter_name, and inviter_role
- invitation_status: sent, accepted, expired, cancelled, or failed
- current_activation_stage and stage_entered_at
- last_email_id, last_email_sent_at, next_email_id, and next_email_due_at
- human_follow_up_status, owner, and reason

9.3 Suppression and precedence rules

11. Invitation context overrides the generic signup sequence. An invited user must resume the invitation after authentication.
12. A user who has already completed the required action must not receive a reminder for that action, even if a scheduled job was previously created.
13. A new stage cancels the prior stage's pending messages before scheduling the new sequence.
14. Existing users skip account-creation emails and any onboarding they have already completed.
15. If an invitation is cancelled, invalid, expired, or the email delivery fails, suppress reminders and create an operational exception.
16. If a client requests contractor support, suppress the invite-contractor reminders while the request is active.
17. If a contractor selects that no active project is available, suppress project-creation reminders and move the contractor into nurture.
18. For users with more than one project, reminders must reference the specific project and avoid duplicate sends for the same missing action.

9.4 Human follow-up criteria after Day 7

The system should create a follow-up task rather than automatically calling every inactive user. Prioritize users who meet one or more of these conditions:

- Came through Jalla outreach, a referral, or a known professional relationship
- Has an active or near-term construction project
- Reached at least 50 percent of the incomplete step
- Opened or clicked at least one reminder
- Submitted a support request or replied with a question
- Has a pending invitation connected to an active project

10 Measurement dashboard

Metric	Definition
Signup to onboarding completion	Contractors completing onboarding divided by independent contractor signups
Onboarding to project creation	Onboarded contractors creating a project divided by completed contractor onboardings
Project to invitation	Projects with an invitation sent divided by first projects created
Invitation acceptance rate	Accepted invitations divided by successfully delivered invitations
Time to connected project	Median elapsed time from independent signup or invitation to active two-party project
Reminder recovery by email	Users completing the action after each Day 1, Day 3, or Day 7 email
Human recovery rate	Stalled qualified users completing the action after assisted follow-up
Duplicate-project rate	Projects flagged as duplicates divided by projects created

11 Implementation checklist

- Create separate automations for all four journeys.
- Store entry source at signup and preserve invitation context through authentication.
- Create the required event and status fields before turning on email automation.
- Build deep links for every call to action and test expired-session recovery.
- Cancel pending messages synchronously when an exit event occurs.
- Test each new-user and existing-user invitation route end to end.
- Test English and French preference handling.
- Verify delivery, bounce, unsubscribe, and support-reply handling.
- Create the post-Day-7 operations queue with owner, reason, and due date.
- Launch with internal accounts, then a small live cohort, before enabling the full database.
